

## Light Source Technical DataSheet

EAN	<b>3276007603996</b>
Type of product	Light source
Supplier's address	ADEO Services - 135 rue Sadi Carnot - CS00001. 59790 RONCHIN
Supplier's name or trade mark	LEXMAN
Light sources maker model	<b>R80584027L</b>
Link to EU Product Data base	<a href="https://eprel.ec.europa.eu/screen/product/lightsources/1431335">https://eprel.ec.europa.eu/screen/product/lightsources/1431335</a>
Spectral power distribution in the range 250 nm to 800 nm. at full-load	 <p>The graph displays the spectral power distribution (SPD) of the light source. The x-axis represents wavelength in nanometers (nm), ranging from 250 to 800 nm. The y-axis represents relative power, ranging from 0.000 to 1.200. The SPD curve shows a primary peak at approximately 600 nm, reaching a relative power of about 1.000. A secondary, smaller peak is visible at approximately 450 nm, reaching a relative power of about 0.900. The curve is filled with a rainbow color gradient, transitioning from blue at the lower wavelength peak to red at the higher wavelength peak.</p>
If the light source contains mercury: instructions on how to clean up the debris in case of accidental breakage	Not Applicable
