Conseils de nettoyage

-Pendant le nettoyage, la température de surface du sèche-serviettes ne doit pas dépasser 25°C.
-Le nettoyage doit s'effectuer avec un chiffon doux, non-abrasif.
-Ne pas utiliser de détergent, dissolvant, produit acide ou contenant des éléments tels que : éther, cétone, alcool, glycol, hydrocarbure ou similaire.
-S'il y a des marques persistantes, un nettoyant neutre ou peu alcalin peut être utilisé.
-Rincer immédiatement à l'eau claire et froide après le nettoyage.
