

Brief information on how Gnosjö Konstsmide AB is working to maintain a high level of electrical safety, and that the factories we work with follow the laws and regulations at the time.

All Gnosjö Konstsmide AB:s products are CE certified which is also a government requirement for us as an Manufacturer and importer. The complete CE-files with all related documents are filed at Gnosjö Konstsmide AB.

To further verify that the products meet the necessary requirements for electrical safety and environment, we test the products using a third-party certified testing company. They have a high and credible knowledge in testing of electrical Christmas and Garden decoration products for the European market.

These third party institutions carry out regular checks on production facilities and make sure product material, quality and electrical safety compliance. Gnosjö Konstsmide AB receives copies of their inspection reports.

Gnosjö Konstsmide AB monitors and reviews purchasing and production to ensure that products meet the legal requirements that exist, including Quality and Environment. Gnosjö Konstsmide AB is a company that cares about the environment and social conditions. Environment is part of our sustainability efforts, and we will do much to minimize environmental damage during application or disposal of the product.

Gnosjö Konstsmide AB takes responsibility in each market through membership of the national collection systems in Sweden and all related markets. Through our membership, we fund the collection and quality-assured treatment of our products. We are registered for EEB registry and connected to 'El-Kretsen' and 'FTIAB' in Sweden and in related associations in other markets.

EL-KRETESEN: is the business sectors service company for collection and recycling of electrical and electronic products.
FTIAB (green point): is the business solution for producer responsibility for packaging made of plastic, metal, paper / cardboard and corrugated cardboard.

We work with the following points:
