AVERTISSEMENT:

Pour éviter tout risque de basculement, ce meuble/cet objet doit être solidement fixé au mur. Vérifier la pertinence et la solidité du mur afin de s'assurer que le mur puisse supporter la charge du meuble/de l'objet et résister aux forces générées au niveau des fixations. Un montage mal effectué peut provoquer la chute du meuble/de l'objet et des blessures graves sur les personnes. En cas de doute concernant l'installation, demandez conseil à un vendeur spécialisé ou contactez un professionnel.

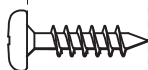

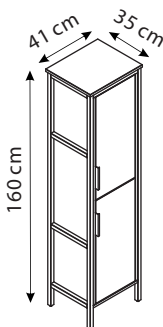

* Utiliser des vis et chevilles adaptées au type de matériau de votre mur. Celles-ci ne sont pas incluses. Pour obtenir des conseils sur les vis et ferrures adaptées à votre mur, adressez-vous à un vendeur spécialisé.

This exploded view diagram illustrates the assembly of a 1000mm x 1000mm table top. The components are numbered 1 through 7, and ADM fasteners are used throughout the assembly.

- Component 1:** A long, narrow rectangular panel, likely a side rail or end panel, featuring a series of small circular holes along its length. It is secured with ADM fasteners at its ends.
- Component 2:** A long, narrow rectangular panel, similar to component 1, also featuring a series of small circular holes. It is secured with ADM fasteners at its ends.
- Component 3:** A rectangular panel, likely a cross rail or support panel, featuring a series of small circular holes. It is secured with ADM fasteners at its corners and midpoints.
- Component 4:** A rectangular panel, similar to component 3, featuring a series of small circular holes. It is secured with ADM fasteners at its corners and midpoints.
- Component 5:** A rectangular panel, likely a cross rail or support panel, featuring a series of small circular holes. It is secured with ADM fasteners at its corners and midpoints.
- Component 6:** A square panel, likely a corner support or end cap, featuring a series of small circular holes. It is secured with ADM fasteners at its corners.
- Component 7:** A square panel, likely a corner support or end cap, featuring a series of small circular holes. It is secured with ADM fasteners at its corners.

The ADM fasteners are shown as small, cylindrical pins with hexagonal heads, used to secure the components together. The diagram shows the components in an exploded state, indicating their relative positions and the sequence of assembly.
