

Light Source Technical DataSheet

EAN	3276007603668
Type of product	Light source
Supplier's address	ADEO Services - 135 rue Sadi Carnot - CS00001. 59790 RONCHIN
Supplier's name or trade mark	ADEO SERVICES
Light sources maker model	GU104927N
Link to EU Product Data base	https://eprel.ec.europa.eu/screen/product/lightsources/1431286
Spectral power distribution in the range 250 nm to 800 nm. at full-load	 <p>The graph displays the spectral power distribution (SPD) of the light source. The x-axis represents wavelength in nanometers (nm), ranging from 250 to 800 nm. The y-axis represents relative power, ranging from 0.000 to 1.200. The SPD curve shows a primary peak at approximately 600 nm with a power of about 1.000, and a secondary peak at approximately 450 nm with a power of about 0.350. The curve is colored with a rainbow gradient, transitioning from blue at the lower wavelength peak to red at the higher wavelength peak.</p>
If the light source contains mercury: instructions on how to clean up the debris in case of accidental breakage	Not Applicable
