

Light Source Technical DataSheet

EAN	3276007603682
Type of product	Light source
Supplier's address	ADEO Services - 135 rue Sadi Carnot - CS00001. 59790 RONCHIN
Supplier's name or trade mark	ADEO SERVICES
Light sources maker model	GU104965N
Link to EU Product Data base	https://eprel.ec.europa.eu/screen/product/lightsources/1431291
Spectral power distribution in the range 250 nm to 800 nm. at full-load	 <p>The graph displays the spectral power distribution (SPD) of the light source. The x-axis represents wavelength in nanometers (nm), ranging from 250 to 800. The y-axis represents relative power, ranging from 0.000 to 1.200. The SPD shows a sharp peak at approximately 450 nm (blue/violet) and a broader, lower-intensity peak at approximately 550 nm (green/yellow). The power drops to zero at approximately 750 nm.</p>
If the light source contains mercury: instructions on how to clean up the debris in case of accidental breakage	Not Applicable
