Dear Sir or Madam,

Wakol GmbH is a typical 'Down Stream User' and will support the communication within the supply chain according to the requirements of REACH.

For the production of our products, we will only use substances which have been exempt from the obligation of registration or are preregistered or registered within the legal limitation period. It is therefore not necessary to preregister or register products which are manufactured by us.

Therefore, our products correspond to the regulation 1907/2006/EG including all amendments.

We hope this information is sufficient enough and should you have any further questions please do not hesitate to contact us.

Yours sincerely,
Wakol GmbH

ppa. Dr. Stefan Glang
