

"Let's go green!"

We focus on sustainability

Sustainability is the decisive premise for both the production process and for all of our products.

all products are PVC-free

all products are certified in accordance with Oeko-Tex® Standard 100

all products fulfill the requirements of REACH regulation

all products are certified by SCS Advantage™ Gold

many products are made of recycled post-consumer polyester (recycled PET bottles)

continual new investments in the machinery save energy and reduce CO₂ emissions

return service for our products ensures wise reutilisation after the period of use

You can find more detailed information on our website.
