

**How to install the HERO 360° TAB**

1. Mark the location of the TAB on the wall. Use a level to ensure the TAB is installed straight.

2. Drill a hole through the wall at the marked location. The hole should be approximately 1/2" in diameter and 1/2" deep.

3. Insert the TAB into the hole. The TAB should fit snugly into the hole.

4. Tighten the TAB using the provided Allen key. The TAB should be flush with the wall.

5. Repeat steps 1-4 for each TAB.

**How to use the HERO 360° TAB**

1. The TAB is designed to hold a variety of equipment, including cameras, sensors, and speakers.

2. Simply slide the equipment into the TAB. The TAB's internal mechanism will hold the equipment in place.

3. The TAB can be rotated 360 degrees to allow for easy access to the equipment.

4. The TAB is made of a durable material that can withstand a variety of conditions.
