

& Inspire
Signature

« Light accompanies us at all times.
It was with this in mind that I imagined
the **Marga** lamp : it recharges with you
in the sun, following your comings and
goings both indoors and outdoors.

Marga adapts its lighting according to
your needs, creating a poetic
experience and saving energy. »

Clara van Oorschot

Designer for the ***Inspire*** brand, and passionate about the world of decoration, **Clara van Oorschot** devotes herself simultaneously to plastic and technical works, combining all the manufacturing constraints with current trends. It's in the details, the accuracy of the lines and the finishes that she strives to create singular objects, at the service of reinvented living.

By **M A R G A**
CLARA VAN OORSCHOT

With the **Marga** lamp, **Inspire Signature** offers intelligent new features to adapt to your daily life, while guaranteeing exceptional solar autonomy.

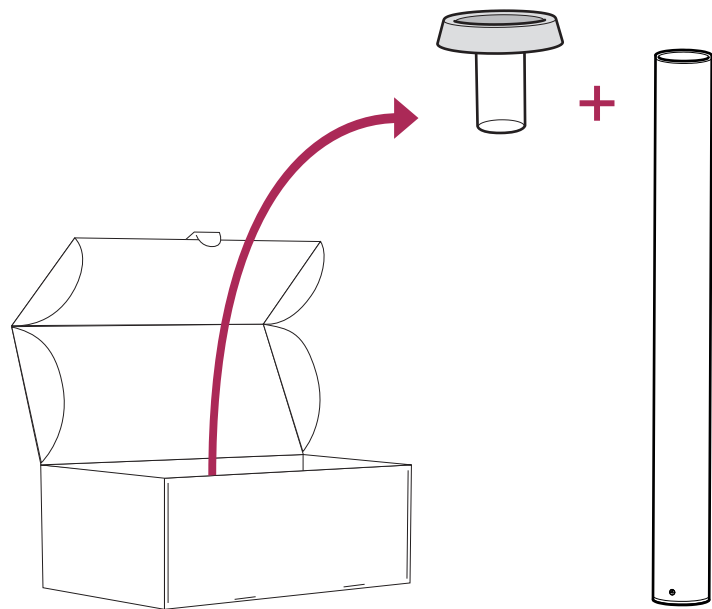

In **eco mode**, the **Marga** lamp can gradually adjust its lighting intensity according to ambient light levels. Detection of your presence nearby also enables it to track your comings and goings, so that it activates at the most opportune moment.

Marga is produced with a particular attention paid to the choice of the materials, the quality of the light and the durability of its finishes.

Thank to our care for a good production, this exclusive range of luminaires comes with a **25-year anti-corrosion guarantee**.
