

## Toldo reforzado con ojales

Toldo impermeables fabricado con rafia tejida de polietileno y plastificada por ambos lados. Perimetro reforzado y ojales de aluminio para facilitar la sujeción. Impermeable y resistente anti-UV.

Ideal para cubrir y proteger de la lluvia todo tipo de maquinaria y materiales.

Tiene una gran resistencia mecánica y una larga durabilidad.

### Características

Material: Rafia de polietileno

Gramaje: 80 y 120 gr/M2

Ojales cada 100 cm

Perimetro reforzado

Impermeable y resistente anti-UV
