

Luxembourg, 19th of July 2017

To whom it may concern

The Plant protection service of Luxembourg cannot issue a phytosanitary certificate requested by:

KRONOSPAN LUXEMBOURG S.A.
B.P.109
L-4902 SANEM

According to the directive 2000/29/CE a phytosanitary certificate can only be issued for non-transformed products. The products listed in the enclosure you submitted do not require a phytosanitary certificate because the wood is physically and mechanically treated and does not represent any phytosanitary threat.

Sincerely,

Katja Thill
