

# S1

## microSD Memory Card

### The High-speed Series

Imou S1 microSD Memory Card is one of the high-speed card series. The speed grade can reach Class 10, U3 and V30, which can meet the daily use of digital cameras, mobile phones, laptops, game consoles, etc., allowing you to read and write data such as photos, audio, video and other data, and enjoy the speed experience.

## S1

### High-quality Memory Cell

3D TLC NAND flash, Up to 1000 P/E cycle

### High-speed

UHS-1, Class 10, U3, V30

### High Adaptability

Water-proof, shock-proof, X-ray proof, high and low temperature resistance, etc

### High Compatibility

Compatible with microSDHC, microSDXC, microSDHC UHS-I and microSDXC UHS-I host devices

Front of the package

Back of the package

## Specifications

Product Model	ST2-128-S1
Capacity	128G
Speed Class	C10/U3/V30
Read Speed	85MB/s
Write Speed	40MB/s
NAND Flash	3D TLC
P/E Cycle	500-1000
Dimensions	15mm×11mm×1mm(0.59" ×0.43" ×0.04" )
Operating Temperature	0°C~+70°C(32°F~+158°F)
Operating Humidity	5%~95%RH
Usage Application	Digital camera, mobile phone, laptop, game console, etc.

### Note:

The nominal capacity is written on both the product and the packaging. 1GB=1 billion bytes, the whole capacity is not all for data storage.
