

F BÂCHE À BULLES POUR PISCINES - Ø 410 cm

Cette couverture de piscine pour été est faite d'une double face d'air, surface lisse vers le haut, bulles en contact avec l'eau. Ainsi protégée de l'enroulement et de l'évaporation, l'eau reste chaude plus longtemps.
Matériau: polyéthylène épaisseur 400 µ, ourlé sur le bord.
Avec petits matelassés renforcés pour la fixation.
Couleur: bleu.

D LUFTPOLSTER ABDECKPLANE FÜR SWIMMING POOLS - Ø 410 cm

Die Abdeckplane für den Sommer wird aus der gleichen Seite nach oben auf dem Wasser ausgelegt, die Luftpolsterseite liegt also mit dem Wasser an. So wird das Wasser vor Verschmutzung und Verdunstung geschützt, zudem bleibt das Wasser im Pool länger warm.
Material: Polyethylen (Dicke 400 µ), am Rand umdünnt mit metallverstärkten Ösen zur Befestigung.
Farbe: blau.

N NOPPENZEIL VOOR ZWEMBADEN - Ø 410 cm

Het afdekzeil voor in de zomer wordt met de gladde kant naar boven naar het water gelegd, de zijde met de noppen komt in aanraking met het water. Het water kan hierdoor niet verdampen, blijft schoon en de koelte extra langdurig.
Material: polyethyleen (dikte 400 µ), voorzien van een zoom en met matras versterkte ogen voor bevestiging.
Kleur: blauw.

GB BUBBLE COVER FOR POOLS - Ø 410 cm

The cover sheet with its summer is spread with the smooth side up onto the water. The air bubble side effectively clings to the water. The water is in this way protected from dirt and evaporation. The water in the pool also stays longer warm.
Material: Polyethylene (thickness 400 µ), edges lined.
Colour: blue.

E LONA COBERTORA DE COLCHÓN DE AIRE PARA PISCINAS - Ø 410 cm

La lona cobertora para verano se extiende con el lado liso hacia arriba sobre el agua y el lado del colchón de aire queda adherido al agua. Así se protege el agua de suciedad y evaporación, y el agua permanece más tiempo caliente en la piscina.
Material: Polietileno (grosor 400 µ), cosido por el borde. Con ojales reforzados de metal para la fijación.
Color: azul.

I Telo Copertura Isotermica a Bolle d'aria per Piscine - Ø 410 cm

Il telo della piscina per l'estate si stende con la parte liscia rivolta verso il basso e la parte a bolle rivolta verso il basso. In questo modo l'acqua è protetta da sporco e evaporazione, e rimane più a lungo calda.
Material: polietilene (spessore 400 µ), cucito sul bordo. Con anelli di fissaggio rinforzati.
Colore: blu.
