

Light Source Technical DataSheet

EAN	3276007961010
Product Supplier reference	HT-WILETS-10W-Z
Type of product	Containing product
Supplier's address	ADEO Services - 135 rue Sadi Carnot - CS00001. 59790 RONCHIN
Supplier's name or trade mark	ZEIGER
Replaceability of Light source	No
Light sources maker model	HT-WILETS-10W-Z-LS
Link to EU Product Data base	https://eprel.ec.europa.eu/screen/product/lightsources/1996504
Spectral power distribution in the range 250 nm to 800 nm. at full-load	 <p>The graph displays the spectral power distribution (SPD) of the light source. The x-axis represents Wavelength (nm) from 380 to 780, and the y-axis represents Spectrum from 0.0 to 1.2. A sharp blue peak is visible at approximately 450 nm, reaching a value of about 1.0. A broad spectrum follows, peaking around 550 nm with a value of approximately 0.5, and then tapering off towards 780 nm. The area under the curve is filled with a rainbow gradient. A scale factor of 1.0 = 3.147e+001mW/nm is indicated in the top right corner.</p>
If the light source contains mercury: instructions on how to clean up the debris in case of accidental breakage	Not Applicable
Recommendations on how to dispose of the light source / Driver at the end of its life Directive 2012/19/EU	Electrical product must not be thrown out with domestic waste. They must be taken to a communal collecting point for environmentally friendly disposal in accordance with local regulations. Contact your local authorities or stockist for advice on recycling.
