| 序号 | 零件名称                              | 规格内容        | 材料             | 图示                                                                                   |
|----|-----------------------------------|-------------|----------------|--------------------------------------------------------------------------------------|
| 1  | Upper cover                       | Φ130*18     | ADC12          |  |
| 2  | Lamp body                         | φ126*72     | ADC12          |                                                                                      |
| 3  | Tempered glass                    | 32.2*32.2*3 | Tempered glass |                                                                                      |
| 4  | sealing ring                      | φ3.5*290    | silicon        |                                                                                      |
| 5  | driver                            | /           | assembly       |                                                                                      |
| 6  | LED board                         | /           | assembly       |                                                                                      |
| 7  | Heat dissipation body             | φ71.5*42.1  | ADC12          |                                                                                      |
| 8  | Insulation paper gasket           | 43*15*32    | DMD            |                                                                                      |
| 9  | Three hole quick connect terminal | /           | /              |                                                                                      |
| 10 | Waterproof coil                   | φ18.6*8.5   | silicon        |                                                                                      |
| 11 | mounting plate                    | φ95*16      | ADC12          |                                                                                      |
