

Product Name

Petroleum Jelly (Vaseline, Lubricant)

1. Identification

Lubricant, anti-rust, sealing

Manufacturer: XXX Company

Address : XXXX

Urgent phone no : XXXX

2. Hazard Identification

According to EU CLP: Not classified as hazardous

3. Composition

Petroleum Jelly. CAS: 8009-03-8, content > 99%

4. First Aid

Skin: No irritation, wash with soap if necessary.

Eyes: Rinse with water.

Ingestion: Generally non-toxic, seek medical attention if unwell.

5. Firefighting Measures

Extinguishing media: Foam, dry powder, CO<sub>2</sub>.

6. Accidental Release

Absorb residues, avoid slipping.

7. Handling & Storage

Store in cool, ventilated place, avoid heat.

8. Exposure & PPE

No special PPE required under normal use.

9. Physical & Chemical Properties

Appearance: White/yellow ointment

Melting point: 38–60°C

10. Toxicological Info

No known acute/chronic toxicity.

11. Ecological Info

Not harmful to aquatic environment.

12. Disposal

Dispose as general industrial waste.

13. Transport Info

Not classified as dangerous goods.

14. Regulatory Info

Complies with EU REACH & CLP.

15. Other Info

This SDS is for reference only, not legally binding.
