¹ The Decree No. 2020-1725 of December 29, 2020 specified in Articles D. 543-45-1 and D. 543-213 of the environment code that a ban on use applies to mineral oils containing substances interfering with the recycling of waste or limiting the use of recycled materials because of the risks they pose to human health. This order specifies the scope and defines the substances thus concerned, based on the ANSES opinion of March 8, 2017 on the migration of mineral oils in foodstuffs from paper packaging and recycled cardboard. It focuses on printing inks. April 13, 2022.

² Mineral oils are complex hydrocarbon substances (composed of molecules of hydrogen and carbon) produced by the refining of crude oils. They are naturally composed of MOSH (Mineral Oil Saturated Hydrocarbons) and MOAH (Mineral Oil Aromatic Hydrocarbons). MOSHs consist of linear, branched and / or cyclic carbon chains, and MOAHs of aromatic compounds.

* examples of printed packaging elements : box, card, bag, film, sticker,...

** examples of product documents : instruction manual, warranty manual, drilling pattern, customer communication document inside the packaging...
