Model: CZPC40X40G-C / CZPC40X40B-C / CZPC40X40T-C

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

Safety precautions

WARNING:

Read this instructions before using this product. Failure to do so can result in serious injury. the basic precautions should always be followed,including the following:

- Check that all the parts are complete and intact before assembly.
- Mount the product on a level and firm ground.
- Please check and make sure that the wall is suitable for mounting in advance. Before the windy weather hits, be sure to retract or dismantle the product. Recommended for use in wind speeds below force 2.
- Ensure that the product is fixed between the ceiling and the floor and does not come loose.
- Ensure that no one is within the range of the product when it is extended or retracted.
- If using the product on a balcony, secure it with a rope to prevent it from falling.
- It is strictly forbidden to hang any objects on the product.
- The service life of the product, especially the life of the plastic parts, depends to a large extent on the weather conditions of the mounting site, so please check the product regularly to ensure that it is in good condition.

People needed for installation

Product List

No.	Part	Name	Qty.
1	 W40.5cm	Board	2
2		Back Fixing Bar	1
3		Bracket	2
4		Frontal Fixing Bar	1
5		Connecting Rod	1
A		Set screw	4
B		Bolt M4x25	4
C		Waterproof tape	1
D		Locating hole sticker	2

Product Description

STEP 1

1 x2

X2

Please peel off the protective films on the front and back sides of the board(1).

STEP 2

The groove faces downward.

Align the boards(1) with the slots on both sides of the connecting rod(5), insert them into the slots, and confirm they are fully engaged.

STEP

x1

2 x1

4

Install the Back Fixing Bar(2) and Frontal Fixing Bar(4) at both ends of the Board(1).

Note: The two types of boards have different widths; please install them in the direction shown in the diagram.

STEP 3

3 x2

1. Place the bracket(3) on the ground, then mount the board onto it.
2. Install the bracket(3) onto the board.

Note:

Installing in the direction shown in the diagram will make the process easier.

During installation, tap gently to ensure the board is mounted more securely.

STEP 4

C x4

Fasten and secure the bracket(3) and fixing bar(2 and 4) with screws(C).

STEP 5

C x1

On the inner side of the awning, insert the waterproof tape into the gap between the board and the bracket. This will make the front fit more tightly and reduce the risk of water leakage.

Note: 1.The waterproof tape should be applied on the inner side to eliminate gaps. 2.There is no need to remove the release paper of the waterproof tape during installation.

STEP 6

D x2

First, confirm the installation position, then use the locating hole sticker(D) to mark the positions of the 4 required installation holes on the wall.

STEP 7

Hole depth at least 80mm.

Use a drill bit to drill holes at the marked positions on the wall.

STEP 8

A x4

Pass the set screws(A) through the four lower holes of the bracket and tighten them to secure the bracket to the wall.

The assembly is complete.

Producto Lista

No.	Parte	Nombre	Cantidad.
1	 Ancho 40,5 cm	Junta	2
2		Barra de fijación trasera	1
3		Soporte	2
4		Barra de fijación frontal	1
5		Conectando Vara	1
A		Tornillo de fijación	4
B		Perno M4x25	4
do		Cinta impermeable	1

D		Etiqueta adhesiva del orificio de localización	2
---	---	--	---

Descripción del Producto

PASO 1

1 x 2

X2

①

Retire las películas protectoras de los lados frontal y posterior del tablero (1).

PASO 2

5x1

The groove faces downward.

Alinee las tablas (1) con las ranuras en ambos lados de la biela (5), insértelas en las ranuras y confirme que estén completamente acopladas.

PASO

2x1

4x1

Instale la barra de fijación trasera (2) y la barra de fijación frontal (4) en ambos extremos del tablero (1) .

Nota: Los dos tipos de tableros tienen diferentes anchos; instálelos en la

dirección que se muestra en el diagrama.

PASO 3

3. Coloque el soporte (3) en el suelo y luego monte la placa sobre él.

4. Instale el soporte (3) en la placa.

Nota:

La instalación en la dirección que se muestra en el diagrama facilitará el proceso.

Durante la instalación, golpee suavemente para asegurarse de que la placa esté montada de forma más segura.

PASO
4

Fije y asegure el soporte (3) y la barra de fijación (2 y 4) con los tornillos (C) .

PASO
5

C x1

En la parte interior del toldo, inserte la cinta impermeable en el hueco entre la tabla y el soporte. Esto hará que la parte frontal quede mejor ajustada y reducirá el riesgo de filtraciones de agua.

Nota: 1. La cinta impermeable debe aplicarse en el lado interior para eliminar los espacios. 2. No es necesario retirar el papel protector de la

cinta impermeable durante la instalación.

PASO
6

D x2

Primero, confirme la posición de instalación, luego use la pegatina del orificio de ubicación (D) para marcar las posiciones de los 4 orificios de instalación necesarios en la pared.

**PASO
7**

Profundidad del agujero al menos 80 mm.

Utilice una broca para perforar agujeros en las posiciones marcadas en la pared.

PASO 8

Un x4

Pase los tornillos de fijación (A) a través de los cuatro orificios inferiores del soporte y apriételos para asegurar el soporte a la pared.

El asamblea es completo.

Detta är de original instruktion, behaga läsa alla manuella instruktioner noggrant innan användning. VEVOR förbehåller sig en tydlig tolkning av vår användarmanual. De utseende av de produkt skall vara ämne till de produkt du mottog. Förlåt oss att Vi kommer inte att informera dig igen om det finns några teknik- eller programuppdateringar på vår produkt.

Säkerhet försiktighetsåtgärder

VARNING:

Läs detta instruktioner före använder detta produkt. Fel till do så burk resultat vid allvarlig skada bör de grundläggande försiktighetsåtgärderna alltid följas, inklusive följande:

- Kontrollera att alla delar är kompletta och intakta före montering.
- Montera produkten på ett jämnt och fast underlag.
- Kontrollera och se till att väggen är lämplig för montering i förväg. Innan det blåsiga vädret slår till, se till att dra in eller demontera produkten. Rekommenderas för användning i vindhastigheter under styrka 2 .
- Se till att produkten är fäst mellan tak och golv och inte lossnar.
- Se till att ingen befinner sig inom produktens räckhåll när den är utfälld eller infälld.
- Om produkten används på en balkong, säkra den med ett rep för att förhindra att den faller.
- Det är strängt förbjudet att hänga några föremål på produkten.
- Produktens livslängd, särskilt plastdelarnas livslängd, beror i hög grad på väderförhållandena på monteringsplatsen, så kontrollera produkten regelbundet för att säkerställa att den är i gott skick.

2		Bakre fäststång	1
3		Konsol	2
4		Frontal fixeringsstång	1
5		Ansluter Stång	1
En		Ställskruv	4
B		Bult M4x25	4
C		Vattentät tejp	1
D		Klistermärke för lokalisering av hål	2

Produktbeskrivning

STEG 1

1 x 2

X2

Dra bort skyddsfilmerna på fram- och baksidan av kortet (1).

STEG 2

The groove faces downward.

Rikta in brädorna (1) med spåren på båda sidor om vevstängan (5), för in dem i spåren och kontrollera att de är helt ihakade.

STEG

2x1

4x1

The groove faces downward.

Montera den bakre fästskenan (2) och den främre fästskenan (4) i båda ändar av brädan (1) .

Obs: De två typerna av skivor har olika bredder; installera dem i den riktning som visas i diagrammet.

STEG 3

5. Placera fästet (3) på marken och montera sedan brädan på det.

6. Jag monterar fästet (3) på kortet.

Notera:

Installation i den riktning som visas i diagrammet kommer att göra processen enklare.

Knacka försiktigt under installationen för att säkerställa att kortet sitter ordentligt fast.

STEG 4

Fäst och säkra racketen (3) och fäststången (2 och 4) med skruvar (C) .

STEG 5

C x1

På markisens insida, sätt in den vattentäta tejpén i springan mellan brädan och fästet. Detta gör att fronten sitter tätare och minskar risken för vattenläckage.

Obs: 1. Den vattentäta tejpén bör appliceras på insidan för att eliminera springor. 2. Det finns inget behov av att ta bort skyddspappret från den vattentäta tejpén under installationen.

STEG 6

D x2

Bekräfta först installationspositionen och använd sedan klistermärket för lokaliseringshålen (D) för att markera positionerna för de 4 nödvändiga

installationshålen på väggen.

STEG 7

Håldjup minst 80 mm.

Använd en borrh för att borra hål på de markerade platserna på väggen.

STEG 8

En x4

För in ställskruvarna (A) genom de fyra nedre hålen på fästet och dra åt

dem för att fästa fästet på väggen.

De monteringen är komplett.

Veiligheid voorzorgsmaatregelen

WAARSCHUWING:

Lezen dit instructies voor met behulp van dit product. Mislukking naar Doen Dus kan resultaat Bij ernstig letsel moeten altijd de volgende basisvoorzorgsmaatregelen in acht worden genomen :

- Controleer of alle onderdelen compleet en intact zijn voordat u met de montage begint.
 - Plaats het product op een vlakke en stevige ondergrond.
 - Controleer vooraf of de muur geschikt is voor montage. Zorg ervoor dat u het product intrekt of demonteert voordat het gaat waaien.
- Aanbevolen voor gebruik bij windsnelheden lager dan kracht 2 .
- Zorg ervoor dat het product tussen het plafond en de vloer wordt bevestigd en niet los kan raken.
 - Zorg ervoor dat er zich niemand binnen het bereik van het product bevindt wanneer het wordt uitgeschoven of ingetrokken.
 - Als u het product op een balkon gebruikt, maak het dan vast met een touw, zodat het niet kan vallen.
 - Het is ten strengste verboden om voorwerpen aan het product te hangen.
 - De levensduur van het product, en met name de levensduur van de kunststof onderdelen, is sterk afhankelijk van de weersomstandigheden op de montageplaats. Controleer het product daarom regelmatig om er zeker van te zijn dat het in goede staat verkeert.

HULPMIDDELEN

Mensen nodig voor installatie

Product Lijst

Nee.	Deel	Naam	Aantal
1	 Breedte 40,5 cm	Bord	2
2		Achterste bevestigingsbalk	1
3		Beugel	2
4		Frontale bevestigingsbalk	1
5		Verbinden Hengel	1
A		Stelschroef	4
B		Bout M4x25	4
C		Waterdichte tape	1

D		Sticker voor het lokaliseren van gaten	2
---	--	--	---

Productomschrijving

STAP 1

1x2

X2

Verwijder de beschermfolie aan de voor- en achterkant van het bord (1).

STAP 2

The groove faces
downward.

Lijn de platen (1) uit met de sleuven aan beide zijden van de drijfstang (5), plaats ze in de sleuven en controleer of ze volledig vastzitten.

STAP

2x1

4x1

The groove faces downward.

Installeer de achterste bevestigingsbalk (2) en de voorste bevestigingsbalk (4) aan beide uiteinden van het bord (1).

Let op: De twee soorten planken hebben verschillende breedtes. Installeer ze in de richting die op de tekening wordt aangegeven.

STAP 3

7. Plaats de beugel (3) op de grond en monteer vervolgens het bord erop.
8. Ik monteer de beugel (3) op het bord.

Opmerking:

Het proces wordt eenvoudiger als u de installatie uitvoert in de richting die op het diagram wordt aangegeven.

Tik tijdens de installatie zachtjes op het bord om ervoor te zorgen dat het steviger vastzit.

STAP 4

Bevestig en borg het racket (3) en de bevestigingsstang (2 en 4) met schroeven (C) .

STAP 5

C x1

Plak de waterdichte tape aan de binnenkant van de luifel in de opening tussen het paneel en de beugel. Dit zorgt ervoor dat de voorkant strakker aansluit en het risico op waterlekage afneemt.

Let op: 1. De waterdichte tape moet aan de binnenkant worden aangebracht om openingen te voorkomen. 2. Het is niet nodig om het bescherm papier van de waterdichte tape te verwijderen tijdens de installatie.

**STAP
6**

D x2

Controleer eerst de installatiepositie en markeer vervolgens met de sticker (D) de posities van de 4 vereiste installatiegaten op de muur.

STAP 7

Gatdiepte minimaal 80 mm.

Boor met een boormachine gaten op de gemarkeerde plekken op de muur.

STAP 8

Een x4

Steek de stelschroeven (A) door de vier onderste gaten van de beugel en draai ze vast om de beugel aan de muur te bevestigen.

De montage is compleet.

Sécurité précautions

AVERTISSEMENT:

Lire ce instructions avant en utilisant ce produit. Échec à faire donc peut résultat
En cas de blessure grave, les précautions élémentaires doivent toujours être respectées, notamment les suivantes :

- Vérifiez que toutes les pièces sont complètes et intactes avant l'assemblage.
- Installez le produit sur une surface plane et stable.
- Veuillez vérifier au préalable que le mur est adapté à la fixation. Avant l'arrivée du vent, veillez à rétracter ou à démonter le produit. Utilisation recommandée pour des vents inférieurs à force 2 .
- Assurez-vous que le produit est bien fixé entre le plafond et le sol et qu'il ne se détache pas.
- Veillez à ce que personne ne se trouve dans le champ d'action du produit lorsqu'il est déployé ou rétracté.
- Si vous utilisez le produit sur un balcon, fixez-le avec une corde pour éviter qu'il ne tombe.
- Il est strictement interdit de suspendre des objets quelconques au produit.
- La durée de vie du produit, et notamment celle des pièces en plastique, dépend en grande partie des conditions météorologiques du lieu d'installation. Veuillez donc vérifier régulièrement le produit afin de vous assurer qu'il est en bon état.

Description du produit

ÉTAPE
1

1 x2

X2

Veuillez retirer les films protecteurs sur les faces avant et arrière de la carte(1).

ÉTAPE 2

The groove faces
downward.

Alignez les planches (1) avec les fentes des deux côtés de la bielle (5), insérez-les dans les fentes et confirmez qu'elles sont entièrement engagées.

ÉTAPE

2 x1

4 x1

Installez la barre de fixation arrière (2) et la barre de fixation avant (4) aux deux extrémités de la planche (1) .

Remarque : Les deux types de planches ont des largeurs différentes ; veuillez les installer dans le sens indiqué sur le schéma.

ÉTAPE 3

3 x 2

9. Placez le support (3) sur le sol, puis montez la planche dessus.

10. J'installe le support (3) sur la planche.

Note:

L'installation dans le sens indiqué sur le schéma facilitera le processus.
Lors de l'installation, tapotez légèrement pour vous assurer que la carte est fixée plus solidement.

ÉTAPE 4

Fixez et sécurisez le support (3) et la barre de fixation (2 et 4) avec des vis (C) .

ÉTAPE 5

C x1

Sur la face intérieure du store, insérez le ruban d'étanchéité dans l'espace entre la planche et le support. Cela permettra une meilleure étanchéité de la face avant et réduira les risques d'infiltration d'eau.

Remarque : 1. Le ruban étanche doit être appliqué à l'intérieur pour éviter les interstices. 2. Il n'est pas nécessaire de retirer le papier protecteur du ruban étanche lors de la pose.

ÉTAPE
6

D x2

Tout d'abord, confirmez la position d'installation, puis utilisez l'autocollant de positionnement des trous (D) pour marquer les positions des 4 trous

d'installation requis sur le mur.

ÉTAPE 7

Profondeur du trou : au moins 80 mm.

Utilisez un foret pour percer des trous aux emplacements marqués sur le

mur.

ÉTAPE
8

A x4

Passez les vis de réglage (A) à travers les quatre trous inférieurs du support et serrez-les pour fixer le support au mur.

Le assemblée est complet.
