FR

Pour des raisons de stabilité, et afin de préserver les pas de vis d'un serrage de travers, il est impératif d'assembler manuellement tous les éléments, et de serrer toutes les vis à la main dans un premier temps. Une fois l'assemblage terminé, vous pouvez procéder au serrage de la visserie de manière plus ferme.
Attention, ne pas s'asseoir sur le produit. En effet, cela peut entraîner une dégradation du produit, voire des blessures, n'entrant pas dans le cadre de la garantie.

ES

Para garantizar la estabilidad y evitar que las roscas de los tornillos se deformen, es imprescindible empezar por montar y atornillar cada pieza a mano. Una vez completado el montaje, se puede proceder a apretar los tornillos con mayor firmeza.
No se siente sobre el producto. De lo contrario, el producto podría resultar dañado o incluso sufrir lesiones, lo que no está cubierto por la garantía.

EN
